

## Ideation Phase

### Define the Problem Statements

Date	30 September 2022
Team ID	PNT2022TMID47921
Project Name	Project - <b>IoT Based Safety Gadget for Child Safety Monitoring and Notification</b>
Maximum Marks	2 Marks

### Customer Problem Statement Template:

Nowadays, crime rate associated with children keeps increasing due to which draws peoples' attention regarding child safety. This research is conducted to propose a child security smart band utilizing IoT technology. Online questionnaire and semi-structured interview are methodologies used to collect data. The online questionnaire gains feedbacks by sending questions electronically, where answers need to be submitted online. In the semi structured interview, researcher meets and asks respondents some predetermined questions while other being asked are not planned in advanced. Through information obtained, a smart band have been proposed to monitor the safety of children. By this, parents know what is happening remotely and can take actions if something goes wrong. The future improvements of this device will be adding functions and software to make it works like a phone such as messaging, gallery, Google, YouTube, meanwhile, adding more child security features so that child safety is guaranteed.

## Problem Statement

ONCE THE TEAM HAS DEFINED THE PROBLEM, TRANSFER THEIR OUTPUT IN THE TEXT BOXES BELOW. THEY SERVE AS THE SKELETON OF THE PROBLEM STATEMENT.

**WHO?**

Children

This project is for Children.

**WHAT?**

IoT Based safety gadget

Designing a IoT based safety gadget for child safety

**WHERE/  
WHEN?**

In School or park

Parents can monitor their children in school or parks and create a geofence around the particular location.

**WHY?**

For the child safety

*Customer value/benefit*

IoT is applied to propose a wearable smart band which helps parents to monitor and get known of their child's condition at anywhere and anytime even if they are not by their children side

Useful gadget

*Business value/benefit*

Our product is economic, usable, wearable, customer satisfaction, profitable for us.

<b>Problem Statement (PS)</b>	<b>I am (Customer )</b>	<b>I'm trying to</b>	<b>But</b>	<b>Because</b>	<b>Which makes me feel</b>
PS-1	Parents	Monitor their children without manual intervention	There is no way to look over their children	children cannot complain about abusements which they face in their daily life to their parents so they are worried e to prevent children before being attacked	Parents are responsible for taking care of their own children. But, due to economic condition and aims to focus on their child's future and career, parents are forced to crave for money.
PS-2	Children	Move independently and explore the world	Parents not allowing them alone	to prevent children before being attacked	Due to the abusements, the emotional and mental stability of the children gets affected which in turn ruins their career and future. These innocent children are not responsible for what happens to them
